## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Information Disclosure Statement***

2. The information disclosure statements (IDS) submitted on 26 September 2003 and 01 July 2004 were filed and are being considered by the examiner.

### ***Allowable Subject Matter***

3. Claims 1-18 are allowed.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chan et al (US 4,694,308) disclose a thermal ink jet head having an all metal orifice plate including ink flow ports and contoured walls forming nozzles. Touge et al (US 6,540,335) disclose an inkjet printhead having a plurality of ink discharge ports, flow paths and electrothermal converting elements. Eida et al (US 6,685,301) disclose an inkjet head with a liquid repellent member having discharge ports on a substrate. Ikegame et al (US 6,659,588) disclose a liquid discharge head having a plurality of liquid paths and discharge openings formed in an orifice plate.

### ***Reasons for Allowance***

5. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claim 1 is the inclusion of the limitations of an ink jet record head that includes a discharge port portion having a first discharge port having a cross section approximately constant against a discharge axis; and a

second discharge port portion contiguous to the first discharge port portion with an uneven portion and communicating with said bubbling chamber while having the cross section parallel with the principal surface of said element substrate and larger than the cross section of the first discharge port portion, and a distance of the uneven portion farthest from a supply direction of said second discharge port portion is shorter than the distance of said uneven portion in an arrangement direction of said discharge ports. It is these limitations found in each of the claims, as they are claimed in the combination of, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
